

Agenda Date: March 20, 2014
Agenda Placement: Regular
Estimated Time: 5 Min.
Continued Item: No

Board Agenda Item

TO: Air Pollution Control District Board
FROM: Holly Sierra, Chair
SUBJECT: Climate Change

RECOMMENDATION:

APCD Board Chair Item: Discuss and consider scheduling an agenda item for a future presentation by a specialist in the field of climate change.

DISCUSSION:

At the December 19, 2013 APCD Board meeting, at the direction of Board Chair Richardson, a presentation was given by Bob Hinnrichs on climate change. A request was made by Board member Carbajal that the Chair consider a future presentation on climate change by an expert in the field.

Realizing that Board members have busy schedules and that most understand the principles of climate change, at this time the Chair is asking Board members to vote on whether or not they would like to receive an additional presentation on the subject. Should the Board wish to receive a future presentation, an expert in climate change from the University of California Santa Barbara could be invited to speak.
