

MEMORANDUM

To: APCD Community Advisory Council

From: Michael Goldman, Manager - Engineering Division (961-8821)

Subject: Offsets and Emission Reduction Credits

Date: December 2, 2013

At the October Council meeting, we presented a comprehensive overview of our New Source Review Offsets and Emission Reduction Credit programs, the current issues at hand, initial analyses and findings and touched on potential new solutions and next steps. After an engaging discussion, it was decided staff would come back at a future meeting with further information and documentation. To answer many of the questions raised at the October meeting, we have prepared the attached [Q&A document](#).

To address the Council's request for having additional documentation in advance of the meeting, we have developed a new webpage that contains useful information on the subject matter. The webpage can be found on our CAC Webpage at <http://www.sbcapcd.org/apcd/cac.htm> under the Documents section on the bottom of the page or directly here at this link: <http://www.sbcapcd.org/apcd/cac-offsets.htm>. This new webpage will also contain our PowerPoint presentation for the December 11th meeting. Please note that the presentation will be subject to last minute revisions as needed.

The new webpage contains:

- PowerPoint Presentations
- General Documents/Links
- Clean Technology Fund Control Analyses
- New Source Review Reference Documents
