

## MEMORANDUM

**To:** District Community Advisory Council

**Contact:** Ben Ellenberger (961-8879)

**Subject:** Upcoming CAC Agenda Items and Rule Development Process

**Meeting:** October 14, 2015

---

Staff will give a presentation and answer questions about rules and plan updates scheduled to be brought to the CAC in the coming year. Items planned for the upcoming year include revisions to the District's New Source Review regulation, a greenhouse gas reduction banking rule, revisions to the rule for large water heaters and small boilers, and the triennial update to the District's Clean Air Plan. The presentation will discuss the process for developing rules and updating plans, and the role of the CAC in the process.

CAC meetings are always scheduled for the first Wednesday of each month. While we may not hold a meeting every month, for your convenience in planning, attached is the list of dates the CAC could potentially meet. Agendas, or notices of "no meeting", will be sent out at least one week prior to meeting dates.
