

## MEMORANDUM

**TO:** Community Advisory Council (CAC) Members

**FROM:** Ben Ellenberger

**SUBJECT:** 2016 Ozone Plan – Draft Chapters 1, 2, 3 and 5 – Air Quality Indicators, Emission Inventory and Transportation Control Measures

**DATE:** May 25, 2016

**MEETING:** June 8, 2016

---

The District is in the process of updating its plan to attain the state ozone standard. At the March 9, 2016 CAC meeting, we provided an introduction to the 2016 Ozone Plan effort and provided a draft of the stationary source control measures to be included in Chapter 4 of the plan. At the June 8 CAC meeting, we will present draft Chapters 1, 2, 3 and 5 of the 2016 Ozone Plan.

Enclosed please find a document that includes draft chapters 1, 2, 3 and 5.

Draft Chapter 1 provides an introduction.

Draft Chapter 2 provides a discussion of the air quality indicators that are used to track progress towards attainment of the state ozone standard.

Draft Chapter 3 provides the emissions inventory and forecast for ozone precursors (nitrogen oxides and reactive organic compounds) for base year 2012 and forecast years 2025 and 2035.

Draft Chapter 5 provides a description of vehicle activity, on-road mobile source emissions, and transportation control measures.

The District plans to present, discuss, and answer questions about the content of these draft chapters at the June 8, 2016 CAC meeting. The meeting will be informational only, and no formal CAC recommendation will be requested.

We plan to hold at least one more meeting with the CAC to review the plan in its entirety, after hearing feedback from the CAC and addressing any concerns. The final meeting will present the

proposed 2016 Ozone Plan for the CAC to consider. After receiving input from the CAC, we intend to take the Ozone Plan to the District Board for a public hearing and adoption later in 2016.
