

**RESOLUTION OF THE BOARD OF DIRECTORS OF  
THE SANTA BARBARA COUNTY  
AIR POLLUTION CONTROL DISTRICT**

IN THE MATTER OF ADOPTING THE  
2016 OZONE PLAN

APCD RESOLUTION NO. \_\_\_\_\_

---

**RECITALS**

**WHEREAS**, the Santa Barbara County Air Pollution Control District ("District") is currently classified as a nonattainment area for the state ozone standard; and

**WHEREAS**, the 2016 Ozone Plan has identified that the District's attainment status for the state ozone standard may change from nonattainment to nonattainment-transitional, pursuant to California Health & Safety Code Section 40925.5(a) and California Code of Regulations Title 17, Section 70303.5(b); and

**WHEREAS**, in accordance with the requirements of Health and Safety Code section 40925, the District is required to revise its state ozone attainment plan at least once every three years; therefore, the District has prepared the 2016 Ozone Plan to attain and maintain the state ozone air quality standard in the District; and

**WHEREAS**, the 2016 Ozone Plan contains proposed commitments by the Board for adoption of specified regulations to control air pollution to attain the state ozone standard, and also includes commitments by the State of California and encourages certain actions by other jurisdictions within Santa Barbara County to achieve that standard; and

**WHEREAS**, pursuant to the California Environmental Quality Act, the District has prepared an Addendum to the Environmental Impact Report for the 2010 Clean Air Plan (State Clearing House No. 2010071014) to address any potential adverse environmental impacts associated with implementation of the 2016 Ozone Plan; and

**WHEREAS**, pursuant to Health and Safety Code section 40717(b), the District entered into a Memorandum of Understanding with the Santa Barbara County Association of Governments on July 20, 1993 to jointly prepare plans for transportation control measures that meet the requirements of that state law; and

**WHEREAS**, to meet the requirements of Health and Safety Code section 40717(b), the Association of Governments with each plan update has quantified current and future year on-road mobile source emissions, has assessed the implementation of adopted transportation control measures, has considered whether additional transportation control measures were necessary, and has adopted the identified transportation control measures at noticed public hearings; and

**WHEREAS**, on August 10, 2016, the Community Advisory Council met and considered the proposed 2016 Ozone Plan and recommended that this Board approve that plan.

**NOW, THEREFORE, IT IS HEREBY RESOLVED**, as follows:

1. The Board hereby finds that the Addendum (Attachment A) has been prepared in compliance with the California Environmental Quality Act and that the Addendum was reviewed and considered by this Board along with the Final Environmental Impact Report for the 2010 Clean Air Plan (Attachment B) prior to the approval of the 2016 Ozone Plan, and that the Addendum reflects the Board's independent judgment and analysis.
2. The California Environmental Quality Act findings, as set forth in Attachment C, are hereby adopted as findings of this Board pursuant to the California Environmental Quality Act and the California Environmental Quality Act Guidelines.
3. The Board hereby finds that the transportation control measures developed and approved by the Association of Governments continue to meet the emission reduction objectives necessary for the District to adopt the 2016 Ozone Plan that demonstrates how the District will attain and maintain the state eight-hour ozone standard.
4. The Board hereby adopts the 2016 Ozone Plan as provided to this Board in Attachment D as the 2016 Ozone Plan of the District and finds that this Plan shall be the plan for purposes of compliance with the plan update requirements of the California Clean Air Act of 1988.
5. The Board hereby commits to adopt the proposed regulations to control air pollution as identified in the 2016 Ozone Plan and the Board relies on the State of California to fulfill the commitments referred to in the Plan.
6. Should the District's designation for the state ozone standard be changed from nonattainment to nonattainment-transitional, the District shall review its plan for attaining the state ozone standard and shall determine whether the stationary source control measures scheduled for adoption or implementation within the next three years are needed to accomplish expeditious attainment or to maintain the state standard.

- 7. The Board authorizes the Control Officer to transmit the 2016 Ozone Plan to the California Air Resources Board and to do all other acts necessary and proper to obtain approval of the 2016 Ozone Plan by the California Air Resources Board.

**PASSED, APPROVED AND ADOPTED** by the Air Pollution Control District Board of the Santa Barbara County, State of California, this \_\_\_ day of \_\_\_\_\_, \_\_\_\_\_, by the following vote:
