

H.B. Case No.:	<u>2016-38-R</u>
Petitioner:	<u>Venoco, LLC</u>
Permit No.:	<u>7904</u>
Date Rec'd:	<u>11/10/16</u>
Time Rec'd:	<u>17:22</u>
Filing Fee Paid:	<u>\$1,263.00</u>

PETITION FOR VARIANCE

Type of Variance Requested:									
Emergency	<u> </u>	Interim ¹	<u> </u>	90-Day	<u> </u>	Regular	<u> </u>	XX	<u> </u>
Length of Variance Requested:	Start Date		<u>12-7-16</u>						
	End Date		<u>12-6-17</u>						
¹ A 90-Day or Regular Variance must be filed concurrently with an Interim Variance									

I. PETITIONER INFORMATION

A. Please provide the name, address and phone number of the Petitioner.

Name: Venoco LLC [Attn: John Garnett]
 Address: 6267 Carpinteria Ave., Suite 100
Carpinteria, CA 93013
 Phone Number: (805) 745-2170

B. Please provide the name, address and phone number of the person authorized to receive correspondence regarding this Petition if different from response in I.A.

Name: [Same as I.A.]
 Address: _____

 Phone Number: _____

C. The Petitioner is (please check one):

- 1) An Individual ()
- 2) Partnership ()
- 3) Corporation (X)
- 4) Public Agency ()
- 5) Other Entity (please describe)

2. Location of equipment for which the variance is requested if different from response in 1.A.

Ellwood Onshore Facility (EOF), 7979 Hollister Ave., Goleta, CA 93117

3. List any District permits that are applicable to the equipment subject to this variance request.

FINAL Part 70/APCD Permit to Operate No. 7904-R10

4. Briefly describe the equipment that is the subject of this Petition.

Venoco, Inc. is requesting a regular variance from specific gas analysis for the EOF, which are not able to be conducted due to ongoing facility shutdown resulting from the closure of the Plains pipeline. Specifically, Venoco seeks relief from requirements to (1) monitor the sulfur content of in-plant gas to H-204, and (2) monitor the sulfur content and high heating value for Grace unit permeate gas. It is beyond Venoco's control to comply with these requirements because (1) H-204 is not operating during the shutdown, and (2) there is no permeate gas stream during this shutdown. Venoco plans to immediately comply with these sampling requirements when oil and gas processing resumes.

5. FINDINGS REQUIRED FOR THE GRANTING OF A VARIANCE

In order for the Hearing Board to grant a variance to a Petitioner authorizing the operation of a source in violation of any rule, regulation or order of the District, the Hearing Board is required to make "findings" in accordance with the requirements specified in California Health and Safety Code §42352, et. seq. and District rules and regulations. The Hearing Board's variance decision will take into consideration information you provide in this Petition. Please ensure your responses are complete and thorough. Please use additional pages as necessary.

A. Please state 1) what District rule, regulation or order you either are or will be in violation of, and 2) the date said violation will or did occur. Include as appropriate the applicable permit conditions for which variance relief is being sought.

- (1) PTO 7904-R10, Permit Condition No. 9.C.1.(c).(v): Daily monitoring and six month analysis of the sulfur content of in-plant fuel gas to H-204;
- (2) PTO 7904-R10, Permit Condition No. 9.C.1.(c).(vi): Daily monitoring and six month analysis of the sulfur content of Grace Unit permeate gas;
- (3) PTO 7904-R10, Permit Condition No. 9.C.1.(c).(viii): Monthly monitoring of high heating value of Grace Unit permeate gas.

B. Please describe how compliance with the District rule, regulation or order listed in Section A above is beyond your reasonable control. In addition to any other relevant factors, please include

in your discussion 1) what actions you have taken to comply or seek a variance, which were timely and reasonable under the circumstances.

EOF shutdown has resulted in no produced gas being available to perform the subject monitoring requirements for which variance relief is being sought. During the shutdown, Venoco has continued to perform all required monitoring items not affected by the shutdown.

- C. Please describe how you would be impacted if you were required to immediately comply with the District rule, regulation or order the subject of this variance request. In addition to any other relevant factors, please discuss why such impacts would result in 1) an arbitrary or unreasonable taking of property, or 2) the practical closing and elimination of a lawful business.

Venoco is unable to comply with the subject requirements due to the fact that there is no oil and gas process as a result of production shutdown. A practical closing of the facility has already occurred due to the impacts of the Plains Pipeline spill and shutdown.

- D. If you were required to immediately comply with the District rule, regulation or order the subject of this variance request, please describe what impact, if any, that would have on air contaminants.

Since Venoco is unable to comply with the subject requirements as per above, impact on air contaminants in the event of immediate compliance is not applicable.

- E. Please describe what consideration you have given to curtailing operation of the source in lieu of obtaining a variance.

With the exception of processing a small amount of in-plant gas to allow for continued operation of the vapor recovery systems, all EOF operations are already curtailed. A variance is being sought because compliance with the subject permit conditions is required irrespective of operational status.

- F. Please describe what steps and measures you will take to reduce excess pollutant emissions the maximum extent feasible during the requested variance period.

All equipment associated with the subject permit conditions are not in operation during this facility shutdown. Therefore, there are no excess emissions associated with the granting of this variance.

- G. If requested to do so by the District, please describe how you will monitor or otherwise quantify and report to the District any pollutant emissions associated with the granting of your variance.

Not applicable since there are no excess emissions associated with the granting of this variance.

6. SUPPLEMENTAL FINDINGS IF APPLYING FOR AN EMERGENCY VARIANCE PURSUANT TO RULE 506 (EMERGENCY VARIANCE FOR BREAKDOWNS)

- A. Please provide the date and time the breakdown was reported to the District

Date: N/A Time: _____

- B. Breakdown number (as provided by the District): N/A

- C. Please provide a description of the "breakdown condition", including equipment involved and the cause to the extent it is known.
- D. Please describe why the continued operation of your facility in a "breakdown condition" is not likely to cause an immediate threat or hazard to public health or safety and will not interfere with the attainment or maintenance of any primary national ambient air quality standard. _
7. Will the operation of the equipment subject to this variance result in violation of District Rule 303, Nuisance? No.
8. Please state whether or not any civil or criminal case involving the equipment subject to this variance is pending any court. There are no civil or criminal cases involving the equipment subject to this variance.

The undersigned is authorized to submit the above Petition on behalf of the Petitioner and further states under penalty of perjury that the above Petition, including any attachments and the items therein set forth, are true and correct.
