

## Outlook for Main

**Smoke:** Today: Expect conditions similar to yesterday in the Santa Ynez Valley today and overnight. Winds from the NW may push smoke and ash over Goleta and Santa Barbara late this afternoon and early evening. Smoke associated with the Sundowner is expected to flow offshore. Tomorrow: Similar impacts are expected.

**Fire:** The Whittier Fire is now at 13,199 acres and is 52% contained. Fire growth was slow yesterday during daylight hours. A large area on the south of Santa Ynez and Broadcast Peaks burned from sundown last night until around 1:00 AM. Fire movement slowed at the marine layer. As the weather changes today, the eastern and southern edges of the fire will become more active. Sundowner winds are anticipated, and if these winds occur, the fire will become much more active on the south slopes.
