

NOTICE OF PUBLIC HEARING
COUNTY OF SANTA BARBARA
AIR POLLUTION CONTROL DISTRICT HEARING BOARD

Notice is hereby given that the Santa Barbara County Air Pollution Control District Hearing Board will hold a public hearing to consider the following matters on Wednesday, June 06, 2018 at 9:30 a.m. at the Board of Supervisors Hearing Room, 105 East Anapamu Street, Santa Barbara, California, 93110. Said Petitions are on file with the Clerk of the APCD Hearing Board and are available for public inspection during regular business hours. Interested persons may submit written evidence or arguments concerning these matters before or at said hearing to: The Clerk of the Hearing Board, 260 North San Antonio Rd., Suite A, Santa Barbara, California 93110.

Case No. 2018-05-R (Regular Variance) – ExxonMobil Production Company
12000 Calle Real
Goleta, CA 93117

Hearing – To consider an application by ExxonMobil Production Company submitted on May 03, 2018 for a Regular Variance from District Rule 206, Conditions 9.C.17, 9.C.18, 9.C.36, 9.C.40, and 9.C.41 of Part 70/Permit to Operate 5651. The Petitioner operates the equipment described in this Petition at the Las Flores Canyon oil and gas processing plant, approximately 25 miles northwest of Santa Barbara, CA.

As a result of the Plains All American Pipeline (AAPL) Line 901 failure on May 19, 2015, ExxonMobil Production Company has experienced facility impacts. Due to the uncertainty of when the AAPL Line 901 will re-establish pipeline operations, the Petitioner is preserving equipment to manage its integrity. The Petitioner feels preservation activities may occur for an extended period. Due to this, the Petitioner is requesting relief from the requirements to operate their odor monitoring station until recommissioning activities begin. Since temporary suspension of operations began in May of 2015, there have been no reported odor complaints. The Regular Variance, if granted, will allow the Petitioner enforcement relief through June 30, 2020 or the date the facility resumes platform gas processing, whichever occurs first. There are no expected emissions related to the granting of this variance.

Case No. 2018-06-R (Regular Variance) – ExxonMobil Production Company
12000 Calle Real
Goleta, CA 93117

Hearing – To consider an application by ExxonMobil Production Company submitted on May 03, 2018 for a Regular Variance from District Rule 206, Conditions 9.C.13, 9.C.14, 9.C.16, and 9.C.35 of Part 70/Permit to Operate 8092. The Petitioner operates the equipment described in this Petition at the POPCO gas processing plant, approximately 25 miles northwest of Santa Barbara, CA.

As a result of the Plains All American Pipeline (AAPL) Line 901 failure on May 19, 2015, ExxonMobil Production Company has experienced facility impacts. Due to the uncertainty of when the AAPL Line 901 will re-establish pipeline operations, the Petitioner is preserving equipment to manage its integrity. The Petitioner feels preservation activities may occur for an extended period. Due to this, the Petitioner is requesting relief from the requirements to operate their odor monitoring station until recommissioning activities begin. Since temporary suspension of operations began in May of 2015, there have been no reported odor complaints. The Regular Variance, if granted, will allow the Petitioner enforcement relief through June 30, 2020 or the date the facility resumes platform gas processing, whichever occurs first. There are no expected emissions related to the granting of this variance.

Witness my hand and seal this 16th day of May 2018.
