Case No. 2020-17-N (90-Day Variance) –

California Asphalt Production, Inc.
1660 Sinton Road
Santa Maria, CA 93458

Hearing – To consider an application by California Asphalt Production, Inc. submitted on September 11, 2020, for a 90-Day Variance from District Rule 364.D.1 and 364.H.1.a.

District Rule 364 requires refineries to submit a fence line air monitoring plan and fee by August 21, 2020. Due to the COVID-19 pandemic, the Petitioner was unable to meet the deadline. As a result, the Petitioner submitted a 90-Day Variance request. There are no excess emissions associated with the granting of this Variance.

The Petitioner operates the equipment subject to the Variance request at the Santa Maria Asphalt Refinery located at 1660 Sinton Road, Santa Maria, CA. The 90-Day Variance, if granted, will allow the Petitioner enforcement relief from September 11, 2020 through October 15, 2020, or the date the facility achieves compliance, whichever occurs first. There are no excess emissions associated with the granting of this Variance.

Said Petition is on file with the Clerk of the APCD Hearing Board and available for public inspection. Interested persons may submit written evidence, arguments concerning this matter, or make arrangements to view said Petition before the hearing by contacting the Hearing Board Clerk at: variance@sbcapcd.org, or 260 North San Antonio Rd., Suite A, Santa Barbara, California 93110.

Witness my hand and seal this 22th Day of September, 2020.
