**TOTAL: \$ 2,771,179**

# 2025 Clean Air Grant Program

**40-day application window**  
July 28 - September 05, 2025

- A successful project will be eligible to receive a grant within a range from \$10,000 to \$250,000.
- Grant amounts vary based on several factors, including but not limited to location, usage, cost-effectiveness, emission reductions, eligible project costs, and fund availability.

2025 Electric Equipment Event  
Allan Hancock College

# Grant & Incentive Testimonials

**V Lopez Jr & Sons (Santa Maria):** *“The grant program has helped us tremendously. It has alleviated a lot of stress for us at the time we didn’t have the funds to purchase a new backhoe but with the APCD’s help we were able to make this purchase! We want to thank Mike and his team at the Santa Barbara APCD for making this happen!”*

**Campbell Ranches (Lompoc):** *“The Clean Air Grant Program has helped us immensely. We have been in need of new tractors for quite some time, and these funds make it financially feasible for our company. It has increased efficiency and helped manage input costs. The process is very easy and streamlined.”*

**Deborah Shaw Restoration + Landscape, INC. (Santa Barbara):** *“The electric landscape equipment has been a game changer for us. Our customers and employees appreciate the quiet, clean, and extremely efficient tools. The batteries are comfortable to wear, charge quickly and fully, and last through the day. This is the wave of the future and I highly recommend these!”*
