Estimated Time: N/A
Continued Item: No

Board Agenda Item

TO: Air Pollution Control District Board

FROM: Aeron Arlin Genet, Air Pollution Control Officer 

CONTACT: Lorena Saldana, Executive Assistant/Board Clerk, (805) 979-8282

SUBJECT: District Grant and Incentives Program Activity

RECOMMENDATION:

Receive and file the following grant program related activity:

1. An update on the Heat Clean Program for woodsmoke reduction projects from the start of the program of May 8, 2025, through February 28, 2026;
2. An update on the Old Car Buy Back Program for vehicles retired during the period of January 1, 2026, through February 28, 2026; and
3. Status report for the 2021-2025 Clean Air Grant Programs: fund allocations and expenditures;
4. Summary of the 2025 Clean Air Grants Program emission-reduction grant agreements approved by the Air Pollution Control Officer for the period of January 1, 2026, through February 28, 2026; in accordance with Board Resolution Number 20-13.

DISCUSSION:

This item provides an update on grant and incentive programs and activities that occurred since your last Board meeting.

Heat Clean Program

The Heat Clean Program was launched on May 8, 2025, and the District employed a wide range of bilingual outreach tools including flyers sent to participating installers, email outreach to individuals and organizations, a news release, social media posts, and community newsletters. The Heat Clean Program provides incentive funds for the voluntary replacement of wood-burning

Aeron Arlin Genet, Air Pollution Control Officer

heaters (fireplaces and wood stoves) with electric heaters (heat pumps and electric fireplace inserts). The Heat Clean Program is funded with approximately \$400,000 from the California Air Resources Board's (CARB) Woodsmoke Reduction Program. Applications are being processed on a first-come, first-served order and incentives will be awarded until the funds are depleted. Households in a State-designated low-income or disadvantaged community or on tribal lands, or that document low-income eligibility, can receive an enhanced voucher up to \$12,000 toward replacement with an electric air-source heat pump, and up to \$7,000 toward replacement with an electric fireplace insert. All other households may be eligible for a standard voucher up to \$5,000 toward replacement with an electric air-source heat pump and up to \$2,500 toward replacement with an electric fireplace insert. The replacement heater must be purchased and installed with a participating installer. There are eight (8) installers for heat pumps and three (3) installers for electric fireplace inserts.

As of February 28, 2026, 75 voucher project applications have been received which includes 35 enhanced fireplace inserts, 15 enhanced heat pumps, 20 standard fireplace inserts, and five (5) standard heat pumps, for a total of about \$395,000 in voucher funds issued. As of February 28, 2026, nearly \$236,000 in Project funds have been expended.

Old Car Buy Back Program:

The attached Old Car Buy Back Program update includes the number of vehicles retired, funds allocated, emissions reduced, average cost-effectiveness of program, and vehicle owner location. On August 21, 2025, the District Board approved modifications to the Old Car Buy Back Program that increased the incentive amount to \$2,200 for vehicle owners and \$300 to dismantlers per vehicle scrapped. In addition, the current vehicle model year accepted by the program was increased from 1997 to 2002 model year or older. From January 1, 2026, through February 28, 2026, 72 vehicles have been purchased and retired.

Clean Air Grants Program:

For the 2025 Clean Air Grants program, the District is currently in the process to execute grant agreements for 30 projects throughout Santa Barbara County with approximately \$3 million in CARB grant funds and DMV surcharge revenue. Of these 30 projects, there are 18 off-road equipment replacements, 9 alternative vehicle fueling infrastructure purchases and installations, two (2) electric school bus fleet expansions, and one (1) marine diesel engine repower project. Currently, 11 of the 30 projects (37%) have executed grant agreements and have begun the implementation process.

For the 2024 Clean Air Grants program, the District executed grant agreements for 38 projects throughout Santa Barbara County with approximately \$2.9 million in CARB grant funds and DMV surcharge revenue. Of these 38 projects, there are 27 off-road equipment replacements, 10 alternative vehicle fueling infrastructure purchases and installations, and one (1) agricultural water pump. Currently, 27 of the 38 projects (71%) have been completed with the remainder in the implementation process and three projects were recently terminated. The three terminated projects include:

- AP242501: Channel Islands Expeditions requested termination of their \$86,000 grant agreement because of their inability to secure additional funding required to complete the project.
- AP242514: City of Carpinteria requested termination of their \$66,000 grant agreement because the electric tractor manufacturer is currently unable to fulfill orders for the equipment that best meets the City of Carpinteria's needs at this time.
- AP242533: CalPortland requested termination of their \$96,000 grant agreement because their business timeline changed and the funds for this project had to be shifted to other needs in the company.

The unexpended grant funds from the terminated projects will be redirected to other eligible projects to ensure that funds are allocated, implemented, and completed within the CARB grant program expenditure deadlines.

For the 2023 Clean Air Grants program, the District executed grant agreements for 40 projects throughout Santa Barbara County with approximately \$2.7 million in CARB grant funds and DMV surcharge revenue. Of these 40 projects, there are 28 off-road equipment replacements, 9 alternative vehicle fueling infrastructure purchases and installations, and three (3) marine engine repowers. Currently, 34 of the 40 projects (85%) have been completed with the remainder in the implementation process.

For the 2022 Clean Air Grants program, the District is currently implementing 55 projects throughout Santa Barbara County with approximately \$3.6 million in CARB grants funds and DMV surcharge revenue. Of these 55 projects, there are 37 off-road equipment replacements, 10 alternative vehicle fueling infrastructure purchases and installations, three (3) marine engine repowers, two (2) on-road heavy-duty vehicles, two (2) electric school bus fleet expansions, and one (1) agricultural water pump. Currently, 52 of the 55 projects (95%) have been completed with the remaining three (3) in the implementation process.

For the 2021 Clean Air Grants program, the District is currently implementing 31 projects throughout Santa Barbara County with approximately \$2.4 million in CARB grants funds and DMV surcharge revenue. Of these 31 projects, there are 19 off-road equipment replacements, nine (9) alternative vehicle fueling infrastructure purchases and installations, two (2) electric school bus fleet expansions, and one (1) marine engine repower. Currently, 29 of the 31 projects (94%) have been completed with the remaining two (2) in the implementation process.

ATTACHMENTS:

- A. Heat Clean Program Update.
- B. Old Car Buy Back Program Update.
- C. Grant Agreement Approval Forms.
- D. Grant Agreement Termination: AP242501 – Channel Islands Expeditions.
- E. Grant Agreement Termination: AP242514 – City of Carpinteria.

Heat Clean Program Update

The Heat Clean Program provides incentive funds for residents to replace a wood-burning stove or fireplace with a cleaner burning and more efficient electric heater, either a heat pump or electric fireplace insert. Some households may qualify for a higher amount, an Enhanced Voucher, depending on the household’s location in a state-designated low-income, disadvantaged, or tribal community, or based on the household’s income. Households that do not qualify for the Enhanced Voucher may qualify for the Standard Voucher. The replacement heater must be purchased and installed with a participating installer who has signed an agreement with the District. The program is funded with \$445,004 from the California Air Resources Board with \$412,118 available for project funds and \$42,886 available for administrative funds. Applications were made available starting on May 8th, 2025 and vouchers are issued on a first-come, first-served basis until funds are fully allocated.

The Program mitigates neighborhood impacts and achieves emission reductions in criteria air pollutants, toxic air contaminants, and greenhouse gases by reducing the amount of woodsmoke emitted from fireplaces and wood stoves throughout the County.

Heat Clean Program Voucher Incentives (May 8, 2025 – February 28, 2026)				
Voucher Type	Project Type	Applications Received		Funds Expended
		Number	Funds Issued	
Enhanced	Fireplace Insert	35	\$212,426	\$114,426
	Heat Pump	15	\$120,000	\$84,000
Standard	Fireplace Insert	20	\$37,500	\$22,500
	Heat Pump	5	\$25,000	\$15,000
Total		75	\$394,926	\$235,926

Santa Maria, California 93455

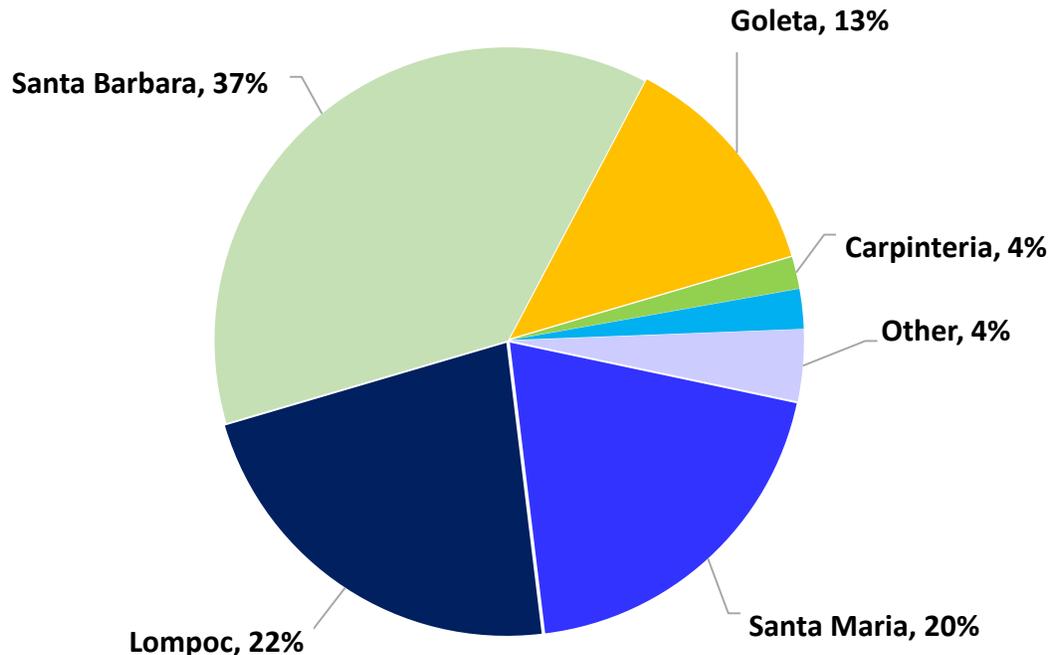

Old Car Buy Back Program Update

The District’s Old Car Buy Back Program pays Santa Barbara County vehicle owners \$2,200 to voluntarily retire their fully legal and operational 2002 or older, light or medium duty car, truck, van, or SUV. The regional dismantlers earn \$300 for each vehicle that they help retire. Currently, the total program cost is \$2,500 to retire a vehicle. To increase public participation, the program was modified in August 2025 to raise the vehicle owner payout and expand the vehicle model year eligibility.

The program accelerates the improvement of air quality by removing high polluting vehicles from the road, quicker than normal vehicle attrition. Funding for the program is derived from \$2 DMV registration surcharge funds. Below is the program data for the most recent reporting period and the entire fiscal year.

Old Car Buy Back Program Activity		
	1/1/2026 - 2/28/2026	FY 2025 - 2026
Vehicles retired	72	253
Funds committed @ \$2,500/vehicle	\$180,000	\$632,500
Total tons reduced [NOx+ ROC + PM]	4.13	14.13
Average project cost-effectiveness	\$48,491/ton	\$48,152/ton

Vehicle Owner Location (FY 2025 - 2026)

January 21, 2026

Subject: Cancellation of Grant Agreement AP242501

To: Michael McKay
Air Pollution Control District, Santa Barbara County

Dear Mr. McKay

Please be advised that Channel Islands Expeditions is no longer able to accept the Carl Moyer Grant Agreement AP242501. While we greatly appreciate the opportunity for funding assistance toward re-power of the engines on vessel Vision, we were unable to secure the additional funding required to complete the project.

This letter transmits our formal request to cancel Grant Agreement AP242501.

Sincerely,

A handwritten signature in black ink that reads 'Joel Mulder'. The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.

RE: Termination of Grant Agreement AP242501

Dear Joel:

The Santa Barbara County Air Pollution Control District (District) received your January 21, 2026 e-mail requesting termination of Grant Agreement AP242501 as executed on December 10, 2024. This letter serves as the District's acknowledgement and acceptance of your termination of the grant agreement for good cause, pursuant to Section 15.a (Termination).

Since the District has not provided any grant funds to Channel Islands Expedition in relation to the grant agreement, there is no obligation to return any money to the District pursuant to Section 15.b (Termination). No further action is required on your part.

The District encourages you to apply to future Clean Air Grant programs to support the transition to cleaner technologies across Santa Barbara County.

Please contact Mike McKay of my staff at mckaym@sbcapcd.org or (805) 979-8331, if you would like to discuss this issue further. Thank you.

Sincerely,

Aeron Arlin Genet,
Air Pollution Control Officer

Hi Michael,

After conferring with the Public Works Director, the City would like to formally request termination of Grant AP242514.

The City had planned to decommission its diesel-powered John Deere tractor and replace it with an electric tractor manufactured by Monarch. Unfortunately, Monarch is currently unable to accept or fulfill orders for the model that best meets the City's operational needs. While alternative options were explored, the City was unable to identify a viable replacement at this time.

Given these circumstances, the City is requesting termination of Grant AP242514, with the anticipation of reapplying should the electric tractor market become more reliable and the grant opportunity become available again in the future.

Please let me know if you require any additional information or a formal termination request on City letterhead.

Thank you,

Stephon Downes

Management Analyst, Public Works

Good Morning,

I am following up on the attached Grant Agreement as the 04/14/2026 date to purchase the new equipment is fast approaching.

After speaking with Jacob Bates at Quinn, it sounds like this project might not happen?

Please let me know asap.

If it is dead, I will need a formal request to cancel the agreement with a simple reason (financial, business model change, etc).

Thanks,
Mike McKay

Subject: RE: Executed Grant Agreement AP242533 - CalPortland

Hey Bryce,

Been a while but finally heard back on the tax docs and they asked about two different accounts on file under "CALPORTLAND COMP"

A check can be mailed to:

CALPORTLAND COMP

PO Box 1280

Santa Maria, CA 93456

Direct deposit can be made to:

CALPORTLAND COMP

PO Box 847409

Los Angeles, CA 900847409

On the Santa Maria PO Box, if it is correct, and you are okay with the check being made to "CALPORTLAND COMP" I'd recommend going that route, and we can be done with the tax stuff.

On the Los Angeles direct deposit account, I can't find out the account info as its confidential.

But that's your call.

If neither of the above is good, then we can go to the third option. Which is re-signing the documents via adobesign, because the county said they are now requiring a signing certificate for all digital docs.

Sorry for the headaches, but I promise you once this is done, it'll be smooth sailing.

Thanks,
Mike McKay

Subject: RE: Executed Grant Agreement AP242533 - CalPortland

Bryce,

I have never done a Form CA587 before. It's always been the Form CA590. I changed the attached W-9 packet form to add in the California "Corporate address" (i.e., Glendora). Hopefully this addition enables them to utilize the Form 590. This legal entity (CalPortland Construction) is solely operating in California (100% California). If that doesn't work, then I can try to do the 587 instead.

I'll let Rod answer the bank part. But please note that our bank accounts are held by the parent since the subsidiaries are 100% owned and consolidated into CalPortland Company. Thus, we do not have a separate bank account in each legal entities name. That's why we have the DBA – so we can make payments under the CalPortland name and receive/deposit checks as such too. The bank account name will only match the "DBA" name on the W-9 & Grant info.

Tyler

Subject: RE: Executed Grant Agreement AP242533 - CalPortland

Hey Bryce,

I heard back on your tax docs, and there are a couple questions (attached are original docs).

The bank letter notes “CalPortland Company” and that name does not match the W9 and grant info. Is there an easy fix for this on your end?

- Grant: CalPortland
- W9: CalPortland Construction with DBA as CalPortland
- WF Account Verification Letter: CalPortland Company

Also, since the business address is Nevada, they want you to submit a CA587 (attached) instead of the CA590 that was part of the packet I sent you. However, if you only do the CA590 and never use the CA587, then please respond as such and we’ll figure it out.

Due to the order time for your new wheel loader (likely October after speaking with Jacob), this is not a high priority on my end. But the sooner the better just to keep things moving.

Please let me know if you have any questions.

Thanks,
Mike McKay

Subject: Executed Grant Agreement AP242533 - CalPortland

Good Afternoon,

Attached is your executed Grant Agreement (GA) AP242533 for funds not-to-exceed \$96,000. This grant funding is applied toward the purchase of a new CAT wheel loader to replace your existing 1996 CAT wheel loader.

As far as reimbursement, there are a few things we need prior to that happening:

- The attached tax documents must be completed.
- The new equipment must be delivered and available for District inspection on or before 04/14/26. (i.e., within 365 days of the effective date of this GA, as noted in Condition 2).
 - Once I perform the inspection of your new equipment, and if everything matches the GA, you will be free to purchase, take possession, and start using the new equipment.
- Per Condition 14 of the GA, the existing equipment unit and engine must be destroyed or rendered unusable within sixty (60) days after taking possession of the new equipment.

The District must witness the destruction of the existing equipment. It can be performed at a number of places:

- Bedford Enterprises, 1940 W. Betteravia Road, Santa Maria. (Call 805-922-4977 to make arrangements)
 - Santa Maria Recycling Center, 1544 Black Road, Santa Maria. (Call 805-431-3559 to make arrangements)
 - SA Recycling (will pick up existing equipment), 599 Betteravia Road, Santa Maria. (Call 805-925-0145 to make arrangements)
 - Timo's Auto Wrecking (will pick up existing equipment), 880 Sheridan Road, Nipomo. (Call 805-400-2570 to make arrangements)
 - A place of your choosing. However, there must be a way to render the existing equipment unit and engine unusable in accordance with Carl Moyer Guidelines: https://ww2.arb.ca.gov/sites/default/files/classic/msprog/moyer/guidelines/2017/2017_cmpgl.pdf
- When scheduling the destruction of your equipment, please make sure you explain it is for destruction under the Carl Moyer program with the APCD and a District representative **MUST** be present to witness the destruction. Once you have arranged the destruction of the equipment, please contact me to so I can witness the destruction.
- An executed purchase agreement with signatures from Quinn showing you have purchased the wheel loader in full.
 - Proof of Warranty (min 1yr/1,600hr).
 - Invoice from CalPortland to Santa Barbara County Air Pollution Control District in the amount of \$96,000, referencing AP242533.

Once those items are taken care of, I can submit everything to our fiscal department for processing of your reimbursement.

If you have any questions, please let me know.

Thanks,
Mike McKay

RE: Termination of Grant Agreement AP242533

Dear Michael,

The Santa Barbara County Air Pollution Control District (District) received your January 27, 2026 e-mail requesting termination of Grant Agreement AP242533 as executed on April 14, 2025. This letter serves as the District's acknowledgement and acceptance of your termination of the grant agreement for good cause, pursuant to Section 15.a (Termination).

Since the District has not provided any grant funds to CalPortland in relation to the grant agreement, there is no obligation to return any money to the District pursuant to Section 15.b (Termination). No further action is required on your part.

The District encourages you to apply to future Clean Air Grant programs to support the transition to cleaner technologies across Santa Barbara County.

Please contact Mike McKay of my staff at mckaym@sbcapcd.org or (805) 979-8331, if you would like to discuss this issue further. Thank you.

Sincerely,

Aeron Arlin Genet,
Air Pollution Control Officer
