SANTA BARBARA COUNTY

MEMORANDUM

TO: Hearing Board Nominating Committee:

- Roy Lee
- Paula Perotte
- Joan Hartmann
- Bob Nelson
- Alice Patino

FROM: Lorena Saldana, Executive Assistant/Board Clerk, (805) 979-8282

DATE: March 19, 2026

SUBJECT: Expiring Terms on APCD Hearing Board

The Santa Barbara County Air Pollution Control District (APCD) Hearing Board is a panel made up of five members appointed by, but acting independently of, the APCD Board of Directors. The members of the Hearing Board have professional experience in the fields of medicine, engineering, law and include two members of the public.

Terence Dessler has been serving as a public member representative on the Hearing Board since June 2017. His current term is set to expire June 2026. Should the Board wish to extend his term, Mr. Dressler has expressed interest in continuing his position on the Hearing Board.

Jonathan Cook has been serving as the engineer member representative on the Hearing Board since August 2023. His current term is set to expire August 2026. Should the Board wish to extend his term, Mr. Cook has expressed interest in continuing his position on the Hearing Board.

As referenced in the enclosed Hearing Board Nominating Committee Agenda, immediately following the regular APCD Board Meeting on March 19, 2026, you will meet to discuss either to recommend the reappointment of either Mr. Terence Dressler and/or Mr. Jonathan Cook to the APCD Hearing Board or begin the search for new members.

The APCD Hearing Board hears and renders decisions on matters of a technical nature involving air quality. Please describe any technical experience, training, or education you have that directly relates to air quality and how it has prepared you to be an effective Hearing Board member.

- 1) 33-year career in air quality management, including positions of increasing responsibility in three separate air pollution control districts.
- 2) Participation in many APCD Hearing Board meetings in the role of staff.
- 3) Member of Santa Barbara County APCD Hearing Board 2017 to present.

Please explain why you are interested in serving on the APCD Hearing Board.

Having spent my entire professional career in public service, in retirement, I have sought out opportunities to serve that benefit from my particular set of experiences, developed skills, and trained abilities. I am particularly suited to serve as a hearing board member. Also, I fundamentally believe that the hearing board process provides an important aspect of the air quality protection mission.

Please describe any experience(s) you have as a member of a Board.

- 1) El Rancho School Site Council - 1996-1998, 2000-2001
- 2) California Air Pollution Control Officers Association Board of Directors 2005-2010
- 3) Goleta Cemetery District Board of Trustees 2006-Present
- 4) City of Goleta Planning Commission 2013-2014
- 5) Santa Barbara County APCD Hearing Board 2017-Present

Do you have any commitments which would prevent you from meeting the attendance requirements of the Hearing Board? If yes, please explain.

Goleta Cemetery District Board of Trustees monthly meeting on the second Tuesday of each month, 4:00 PM - 5:00 PM

Do you work for or have a financial interest in any source regulated by the APCD? If yes, please discuss.

None

Please list professional, trade, or business associations held which relate to the Hearing Board category for which you are applying.

None

List any additional information explaining your qualifications, including relevant volunteer activities, community organization memberships, accomplishments, publications, or awards. Attach additional sheets if necessary.

I published an article that specifically deals with the hearing board process and its role in air quality regulatory policy:

Bending Too Far, The Environmental Forum, Vol. 23, No. 5 (2006)

The APCD Hearing Board hears and renders decisions on matters of a technical nature involving air quality. Please describe any technical experience, training, or education you have that directly relates to air quality and how it has prepared you to be an effective Hearing Board member.

I am a chemical engineer by training and have hands-on experience working with substances impacting air quality: VOCs, halogens, and respirable dusts. Beyond my relevant work as a process engineer and knowledge of critical concepts like PEL levels, hazard classes, and protection factors, I have intimate knowledge of equipment installation and planning interfacing with corporate Environmental Health & Safety personnel, facility contractors, and vendors of abatement technology. While I am not a CA certified PE, my BS in Chemical Engineering is ABET-accredited, and I bring two additional Master's degrees.

Please explain why you are interested in serving on the APCD Hearing Board.

I am interested in serving on the APCD Hearing Board to be able to use my technical skills in a way that benefits the community and develop my own understanding of county-level planning and regulation. As a decade plus resident of the Central Coast, I also want to ensure safe clean air that myself, family, and fellow residents can enjoy while out for morning runs, evening walks, weekend sports, and life in general on the Central Coast.

Please describe any experience(s) you have as a member of a Board.

I am a current member of the APCD Hearing Board, having now served for one term. I've made and seconded motions, questioned petitioners, and demonstrated regular attendance. In addition, in my current industrial role I regularly present to change control boards comprised of management level personnel, who have a variety of technical backgrounds and are responsible for controlling risk to high-value products.

Do you have any commitments which would prevent you from meeting the attendance requirements of the Hearing Board? If yes, please explain.

I do not.

Do you work for or have a financial interest in any source regulated by the APCD? If yes, please discuss.

Yes, I work for Raytheon Technologies in Goleta, regulated by the APCD. I would recuse myself from voting on any related measure, although would be available for any questions if needed.

Please list professional, trade, or business associations held which relate to the Hearing Board category for which you are applying.

I am a member of Tau Beta Pi, the engineering honor society.

List any additional information explaining your qualifications, including relevant volunteer activities, community organization memberships, accomplishments, publications, or awards. Attach additional sheets if necessary.

My first role after graduating was for a local startup with ~10 employees, while I now work for a company with hundreds of local employees but over a hundred thousand global ones. That gives me a unique understanding of the challenges each organization has and how effective regulatory and technical knowledge can improve outcomes for both the local area and company. This understanding has been bolstered by my experience to date on the Hearing Board. I am an author on several published patents, and remain very interested in the work of the Board!
