

Board Agenda Item

TO: Air Pollution Control District Board

FROM: Aeron Arlin Genet, Air Pollution Control Officer 

CONTACT: Lorena Saldana, Executive Assistant/Board Clerk, (805) 979-8282

SUBJECT: District Grant and Incentives Program Activity

RECOMMENDATION:

Receive and file the following grant program related activity:

1. An update on the Heat Clean Program for woodsmoke reduction projects from the start of the program on May 8, 2025, through May 31, 2026;
2. An update on the Old Car Buy Back Program for vehicles retired during the period of May 1, 2026, through May 31, 2026; and
3. Status report for the 2021-2025 Clean Air Grant Programs: fund allocations and expenditures.

DISCUSSION:

This item provides an update on grant and incentive programs and activities that occurred since your last Board meeting.

Heat Clean Program

The Heat Clean Program was launched on May 8, 2025, and the District employed a wide range of bilingual outreach tools, including flyers sent to participating installers, emails to individuals and organizations, a news release, social media posts, and community newsletters. The Heat Clean Program provides incentive funds for the voluntary replacement of wood-burning heaters (fireplaces and wood stoves) with electric heaters (heat pumps and electric fireplace inserts). The Heat Clean Program is funded with approximately \$400,000 from the California Air Resources Board's (CARB) Woodsmoke Reduction Program. Applications are being processed on a first-come, first-served basis and incentives will be awarded until the funds are depleted. Households

in a State-designated low-income or disadvantaged community or on tribal lands, or that document low-income eligibility, can receive an enhanced voucher up to \$12,000 toward replacement with an electric air-source heat pump, and up to \$7,000 toward replacement with an electric fireplace insert. All other households may be eligible for a standard voucher up to \$5,000 toward replacement with an electric air-source heat pump and up to \$2,500 toward replacement with an electric fireplace insert. The replacement heater must be purchased and installed with a participating installer. There are eight (8) eligible installers for heat pumps and three (3) installers for electric fireplace inserts.

As of May 31, 2026, 81 voucher project applications have been received, which includes 37 enhanced fireplace inserts, 15 enhanced heat pumps, 23 standard fireplace inserts, and six (6) standard heat pumps. Including returned funds due to withdrawn or expired vouchers, over \$401,000 in voucher funds have been issued. As of May 31, 2026, over \$301,000 in Project funds have been expended.

Old Car Buy Back Program:

The attached Old Car Buy Back Program update includes the number of vehicles retired, funds allocated, emissions reduced, average cost-effectiveness of program, and vehicle owner location. On August 21, 2025, the District Board approved modifications to the Old Car Buy Back Program that increased the incentive amount to \$2,200 for vehicle owners and \$300 to dismantlers per vehicle scrapped. In addition, the current vehicle model year accepted by the program was increased from 1997 to 2002 model year or older. From May 1, 2026, through May 31, 2026, 23 vehicles have been purchased and retired.

Clean Air Grants Program:

For the 2025 Clean Air Grants program, the District is currently in the process of executing grant agreements for 29 projects throughout Santa Barbara County with approximately \$3 million in CARB grant funds and DMV surcharge revenue. Of these 29 projects, there are 18 off-road equipment replacements, 8 alternative fuel vehicle infrastructure purchases and installations, two (2) electric school bus fleet expansions, and one (1) marine diesel engine repower project. Currently, 28 of the 29 projects (97%) have executed grant agreements and have begun the implementation process.

For the 2024 Clean Air Grants program, the District executed grant agreements for 38 projects throughout Santa Barbara County with approximately \$2.9 million in CARB grant funds and DMV surcharge revenue. Of these 38 projects, there are 27 off-road equipment replacements, 10 alternative fuel vehicle infrastructure purchases and installations, and one (1) agricultural water pump. Currently, 27 of the 38 projects (71%) have been completed, with the remainder in the implementation process.

For the 2023 Clean Air Grants program, the District executed grant agreements for 39 projects throughout Santa Barbara County with approximately \$2.7 million in CARB grant funds and DMV surcharge revenue. Of these 39 projects, there are 28 off-road equipment replacements, 8 alternative fuel vehicle infrastructure purchases and installations, and three (3) marine engine repowers. Currently, 37 of the 39 projects (95%) have been completed, with the remainder in the implementation process.

For the 2022 Clean Air Grants program, the District is currently implementing 54 projects throughout Santa Barbara County with approximately \$3.6 million in CARB grants funds and DMV surcharge revenue. Of these 54 projects, there are 37 off-road equipment replacements, nine alternative fuel vehicle infrastructure purchases and installations, three (3) marine engine repowers, two (2) on-road heavy-duty vehicles, two (2) electric school bus fleet expansions, and one (1) agricultural water pump. Currently, 53 of the 54 projects (98%) have been completed with the remainder in the implementation process.

For the 2021 Clean Air Grants program, the District is currently implementing 31 projects throughout Santa Barbara County with approximately \$2.4 million in CARB grants funds and DMV surcharge revenue. Of these 31 projects, there are 19 off-road equipment replacements, nine (9) alternative fuel vehicle infrastructure purchases and installations, two (2) electric school bus fleet expansions, and one (1) marine engine repower. Currently, 29 of the 31 projects (94%) have been completed with the remainder in the implementation process.

Heat Clean Program Update

The Heat Clean Program provides incentive funds for residents to replace a wood-burning stove or fireplace with a cleaner burning and more efficient electric heater, either a heat pump or electric fireplace insert. Some households may qualify for a higher amount, an Enhanced Voucher, depending on the household’s location in a state-designated low-income, disadvantaged, or tribal community, or based on the household’s income. Households that do not qualify for the Enhanced Voucher may qualify for the Standard Voucher. The replacement heater must be purchased and installed with a participating installer who has signed an agreement with the District. The program is funded with \$445,004 from the California Air Resources Board with \$402,118 available for project funds and \$42,886 available for administrative funds. Applications were made available starting on May 8th, 2025 and vouchers are issued on a first-come, first-served basis until funds are fully allocated.

The Program mitigates neighborhood impacts and achieves emission reductions in criteria air pollutants, toxic air contaminants, and greenhouse gases by reducing the amount of woodsmoke emitted from fireplaces and wood stoves throughout the County.

Heat Clean Program Voucher Incentives (May 8, 2025 – May 31, 2026)				
Voucher Type	Project Type	Applications Received		Funds Expended
		Number	Funds Issued	
Enhanced	Fireplace Insert	37	\$225,896	\$162,896
	Heat Pump	15	\$108,000	\$84,000
Standard	Fireplace Insert	23	\$37,500	\$30,000
	Heat Pump	6	\$30,000	\$25,000
Total		81	\$401,396	\$301,896

Old Car Buy Back Program Update

The District’s Old Car Buy Back Program pays Santa Barbara County vehicle owners \$2,200 to voluntarily retire their fully legal and operational 2002 or older, light or medium duty car, truck, van, or SUV. The regional dismantlers earn \$300 for each vehicle that they help retire. Currently, the total program cost is \$2,500 to retire a vehicle. To increase public participation, the program was modified in August 2025 to raise the vehicle owner payout and expand the vehicle model year eligibility.

The program accelerates the improvement of air quality by removing high polluting vehicles from the road, quicker than through normal attrition. Funding for the program comes from \$2 DMV registration surcharge funds. Below is the program data for the most recent reporting period and the entire fiscal year.

Old Car Buy Back Program Activity		
	5/1/2026 - 5/31/2026	FY 2025 - 2026
Vehicles retired	23	353
Funds committed @ \$2,500/vehicle	\$57,500	\$882,500
Total tons reduced [NOx+ ROC + PM]	1.12	19.40
Average project cost-effectiveness	\$50,541/ton	\$48,726/ton

Vehicle Owner Location (FY 2025 - 2026)
