Existing Centrifugal Natural Gas Compressors

Applies to equipment that increases the pressure of natural gas by centrifugal action through an impeller. Screw, sliding vane and liquid ring compressors are not centrifugal compressors.

- Operated less than 200 hr/yr?
  - Yes: Exempt from requirements of CARB Regulation
  - No: Proceed to the next step.

- Rod packing/seals connected to VCS?
  - Yes: By January 1, 2018: Implement LDAR
  - No: By January 1, 2018: Implement LDAR and Measure wet seal flowrate annually

- By January 1, 2019: Install VCS or Maintain wet seal flowrate below thresholds
