This application form is for the registration of existing and new stationary and portable diesel engines rated greater than or equal to 50 bhp that are used in Agricultural Operations. To the extent allowed by law, the engine registered in this application may be operated in San Luis Obispo, Santa Barbara or Ventura Counties. The registration will denote any geographic operational restrictions. You do not need to register diesel engines used to power agricultural wind machines or engines that provide motive power (i.e., motor vehicles, tractors). You are required to register the engine in the County that the engine resides. See Form AG-2 for instructions and common definitions of the terms used in this application and the Airborne Toxic Control Measure. Submit this application to the District in which the engine resides.
