Quadrennial Update Summary Addendum Air Toxics Form – 15u

3. In addition to question 7 in the *Air Toxics Emission Data System Review and Update Report Summary Form*, provide a list of all emitting devices at your stationary source and the estimated increase in activity for each device. This increase shall be based on operations during the current quadrennial update operating year in comparison to the last inventory period. The last inventory period is the year that your last APCD-approved AB 2588 air toxics emission inventory risk assessment was based on. In addition, provide documentation to support your estimated increase for each device. For example, documentation can consist of a MSDS sheet for a new solvent being used, an explanation that a diesel engine is being used more due to a longer work schedule at the plant and submittal of annual reports to show the increased fuel use or hours of operation, etc.

Emitting Device (Name and APCD Device #)	Increase in Activity (%)	Toxic Air Contaminants (TACs) Emitted
(1,44110 4110 121 02 20 1100 11)		Zimuoo
An additional sheet is attached	ed to this application to list additional d	levices.
Supporting documentation is	s attached.	
Applicant/Preparer Statement		
	blication also must sign this form. The thorized agent (contractor/consultant <i>gent Form -01A</i> is required).	
I certify pursuant to H&SC Sectivith this form is true and correct.	ion 42303.5 that all information contained	d herein and information submitted
