

Small Boilers & Process Heaters Application Form -60

Santa Barbara County Air Pollution Control District
260 N. San Antonio Road, Suite A
Santa Barbara, CA 93110-1315
TEL: (805) 961-8800
Email: enr@sbcapcd.org Web Site: www.ourair.org

For Units Rated Less Than 5.0 Million Btu/hr and Installed Before 1/17/2008

Application must be typewritten, computer generated, or hand printed in ink. Complete all pages of the application.

IMPORTANT: To assure that your application is complete include all of the following when submitting this application:

- ✓ Application Fee \$812*(one per facility) ✓ Complete all sections ✓ Signature on Application ✓ One Unit per Application

*Fee is COLA adjusted every July 1st

This application form is for the permitting of existing (installed prior to January 17, 2008) small boilers, process heaters and steam generators whose individual or combined (i.e., stacked) heat input rating is greater than 2.0 MMBtu/hr. See APCD Form -61 for new units rated less than 5.0 MMBtu/hr and APCD Form -33 for units rated at 5.0 MMBtu/hr and greater. Reference our Boiler webpage for additional resources (<http://www.ourair.org/boiler-heater-generator>).

1. FACILITY NAME:

Facility Street Address _____

City, State ZIP: _____

Assessor Parcel Number(s)
(APN) _____

2. EQUIPMENT OWNER:

Contact Person: _____

Work Phone: _____

Company Name: _____

FAX: _____

Mailing Address: _____

Cell Phone: _____

City, State ZIP: _____

E-Mail: _____

3. OTHER CONTACTS: Are the contacts below the same as Equipment Owner? If not, complete Section 14 below.

Operator: Same as Owner

Inspections: Same as Owner

Billing: Same as Owner

Correspondence: Same as Owner

4. AUTHORIZED AGENT: Is this application filled out by an Authorized Agent? Yes No

If Yes, fill in Section 15.

5. PURPOSE OF APPLICATION:

Existing Unit (installed prior to 1/17/2008). Use APCD Form - 61 for new units rated less than 5.0 MMBtu/hr.

6. EQUIPMENT TYPE:

Hot-Water Boiler

Steam Boiler

Process Heater

Large Water Heater

Steam Generator

Other (describe): _____

7. EQUIPMENT RATED HEAT INPUT: Provide the maximum rated hourly heat input from unit's nameplate in x.xxx format. Unless otherwise requested, daily and annual permit limits will be based on the potential to emit of the unit.

Hourly: _____ MMBtu/hr (example: 2.765 MMBtu/hr)

(District Use Only)

Date Received Stamp	APCD Application		
	Facility Number:	Permit No.	Filing Fee:
	Receipt No.	Check No.	
Facility Name:			Rule 202.E? [] Yes [] No

Small Boilers & Process Heaters Application Form -60

Santa Barbara County Air Pollution Control District
260 N. San Antonio Road, Suite A
Santa Barbara, CA 93110-1315
TEL: (805) 961-8800
Email: enr@sbcapcd.org Web Site: www.ourair.org

8. EQUIPMENT DATA: Enclose a copy of the unit's data sheet and a photo of the nameplate, if available.

Installation Date: _____ Manufacture Date: _____ or Approx. Unit Age: _____

Mfgr: _____ Model: _____

Serial No: _____ Operator ID: _____ Building No: _____

Type Draft: Forced Draft Induced Draft Natural Draft

Mode: On/Off High/Low Fire Full Modulation

Fuel Used: Utility Natural Gas Produced Gas Propane Digester Gas

Other (describe): _____

Sulfur Content: _____ Units: ppmvd or % by weight (circle units) {data not required for utility gas or propane}

Does this unit utilize a backup fuel? Yes No. If Yes, state the fuel type and sulfur content below.

Backup Fuel: _____ Sulfur: _____ Units: ppmvd or % by weight (circle units)

Burner Information. Check this box if this data is the same as the boiler/process heater or if not known

Mfgr: _____ Model: _____

Rating: _____ MMBtu/hr No. of Burners: _____

9. FUEL METERING: Units rated less than 5.0 MMBtu/hr have three options for tracking fuel use. Select one of the following for the unit described above in Section 8 above.

- Fuel Meter. A dedicated temperature and pressure corrected fuel meter. Gas utility company meters are generally not considered "dedicated" meters. A single meter that is connected to a combined grouping of units (i.e., stacked units) is considered dedicated. The permittee must obtain District approval of each fuel meter.

Manufacturer: _____

Meter Shared for a grouping of Units?

Model: _____

Temperature & Pressure Corrected?

Type: _____ *examples:* positive displacement (diaphragm/bellows), rotary (Roots type), turbine, orifice, mass flow, ultrasonic flow.

- Hour Meter. A dedicated hour meter or an electronic management system that is capable of tracking and logging the units time on/off. The permittee must obtain District approval of the hour meter system.

- Default Rating Method. This method does not require the use of a District approved meter. The amount of fuel used will be assumed to be equal to the permitted daily and annual heat input limit for the unit divided by the heating value of the fuel as specified by the District.

10. UNITS RATED at 2.0 MMBtu/hr or LESS: APCD permits are required for units rated at 2.0 MMBtu/hr or less if multiple units are grouped (i.e., stacked) for a common process. Contact the APCD if you are unsure (attn: Engineering Supervisor). These units are subject to Rule 360 certification requirements if manufactured after October 17, 2003.

- Was this unit(s) manufactured after October 17, 2003?

If Yes, is this unit certified per Rule 360? (see the APCD's Boiler webpage for more information on Rule 360)

Small Boilers & Process Heaters Application Form -60

Santa Barbara County Air Pollution Control District
260 N. San Antonio Road, Suite A
Santa Barbara, CA 93110-1315
TEL: (805) 961-8800
Email: enr@sbcapcd.org Web Site: www.ourair.org

11. EMISSION CONTROLS: Complete this section if emission controls are employed. Leave blank if unknown.

- Low-NOx Burner Flue Gas Recirculation SNCR SCR
 Other (describe): _____

12. STACK DATA: Complete this section to the best of your ability. Leave items blank if unknown.

- Stack Height Above Ground: _____ feet Stack Diameter: _____ inches (inside diameter)
Stack Height Above Building: _____ feet Exhaust Flow Rate: _____ cfm (cubic feet/minute)
Exhaust Temperature: _____ °F Exhaust Velocity: _____ feet per minute
Stack Orientation: horizontal vertical End of Stack: rain cap open or hinged rain flap
Does the stack stand alone or is it located on the building? stands alone on building

13. SIGNATURE:

I hereby certify that all information provided on this application, and any attachments, is true and correct. I agree to pay any and all fees required by District rules for processing this application and for issuance of any permit. If I abandon this project and withdraw my application, or should my application be disapproved, I understand that the application fee is not refundable. If I withdraw my application, I further understand that I shall inform the APCD in writing and I will be charged for all costs incurred through closure of the APCD files on the project.
