

NOTICE OF PUBLIC HEARING  
COUNTY OF SANTA BARBARA  
AIR POLLUTION CONTROL DISTRICT HEARING BOARD

Notice is hereby given that the Santa Barbara County Air Pollution Control District Hearing Board will hold a public hearing to consider the following matters on Wednesday, May 1, 2019 at 9:30 a.m. at the Board of Supervisors Hearing Room, 511 East Lakeside Parkway, Santa Maria, California, 93455. Said Petitions are on file with the Clerk of the APCD Hearing Board and are available for public inspection during regular business hours. Interested persons may submit written evidence or arguments concerning these matters before or at said hearing to: The Clerk of the Hearing Board, 260 North San Antonio Road, Suite A, Santa Barbara, California 93110.

Case No. 2016-13-M2 –  
(Modification of a Final Compliance Date)

ExxonMobil Production Company  
12000 Calle Real  
Goleta, CA 93117

**Hearing** – To consider an application by ExxonMobil Production Company submitted on April 8, 2019. As a result of the Plains All American Pipeline (AAPL) Line 901 failure on May 19, 2015, ExxonMobil Production Company has shut down operations and facility equipment has been preserved to manage its integrity. At this time, it is unclear when the restart of the Petitioners facility may occur.

The Petitioner is currently operating under Regular Variance Order 2016-13-M1, which provides relief from the below District Rules and permit conditions through June 5, 2019 (or the date the facility resumes the processing of platform gas, whichever occurs first). Per Health and Safety Code §42357, the Petitioner is requesting a Modification of Final Compliance Date for Variance 2016-13-M1 to extend coverage through June 5, 2021, or the date the facility resumes the processing of platform gas, whichever occurs first. If granted, the variance would provide continued relief from the requirements associated with operating an H2S analyzer to continuously measure H2S concentrations in the gas, as specified in District Rules 328, 206, and Part 70/Permit to Operate 8092-R9 Conditions 9.C.7(a)(i), 9.C.12 and 9.C.12(a).

The Petitioner operates the equipment described in the Petition at the POPCO gas processing plant, approximately 25 miles northwest of the City of Santa Barbara, California.

Case No. 2016-15-M2 –  
(Modification of a Final Compliance Date)

ExxonMobil Production Company  
12000 Calle Real  
Goleta, CA 93117

**Hearing** – To consider an application by ExxonMobil Production Company submitted on April 8, 2019. As a result of the Plains All American Pipeline (AAPL) Line 901 failure on May 19, 2015, ExxonMobil Production Company has shut down operations and facility equipment has been preserved to manage its integrity. At this time, it is unclear when the restart of the Petitioners facility may occur.

The Petitioner is currently operating under Regular Variance Order 2016-15-M1, which provides relief from the below District Rules and permit conditions through June 25, 2019 (or within 90 days of POPCO resuming the processing of platform gas, whichever occurs first). Per Health and Safety Code §42357, the Petitioner is requesting a Modification of Final Compliance Date for Variance 2016-15-M1 to extend coverage through June 25, 2021, or within 90 days of POPCO resuming the processing of platform gas, whichever occurs first. If granted, the variance would provide continued relief from the requirements to perform source testing on multiple pieces of permitted equipment, as specified in District Rules 328, 342, 206, and Part 70/Permit to Operate 8092-R9 Conditions 9.C.1(c)(iii), 9.C.5(b)(v), 9.C.7(c)(ii), 9.C.12, 9.C.12(b) and 9.C.18(a).

Aeron Arlin Genet, Air Pollution Control Officer

The Petitioner operates the equipment described in the Petition at the POPCO gas processing plant, approximately 25 miles northwest of the City of Santa Barbara, California.

Witness my hand and seal this 11<sup>th</sup> day of April, 2019.

AERON ARLIN GENET  
Clerk of the Hearing Board

  
By: Lyz Hoffman,  
on behalf of Sara Hunt  
Deputy
