

**RULE 901. NEW SOURCE PERFORMANCE STANDARDS (NSPS). (Adopted 6/28/1976, readopted 10/23/1978, revised 6/1981, readopted by incorporation 6/8/1987, revised 10/17/1988, 11/21/1989, 12/18/1990, 4/21/1992, 10/26/1993, ~~and 5/16/1996, and [date of revised rule adoption]~~)**

**A. Incorporation of Federal Standards Purpose**

~~The provisions of Part 60, Chapter I, Title 40 of the Code of Federal Regulations (40 CFR Part 60), which are in effect on May 16, 1996, are incorporated herein and adopted by reference as part of the Rules and Regulations of the Santa Barbara County Air Pollution Control District. Applicable provisions of 40 CFR Part 60 include those incorporated in the current bound CFR volume plus any provisions recently promulgated by EPA, as noticed in the Federal Register, but not yet incorporated into the bound CFR. Where there are currently effective provisions which are not yet included in the bound CFR volume, the Federal Register notice by which each provision was promulgated is referenced at the affected subpart in Attachment I of this Rule. This rule is enacted to adopt by reference all the applicable provisions regarding standards of performance for new stationary sources as set forth in 40 Code of Federal Regulations, Part 60 (40 CFR 60).~~

**B. Applicability**

~~All new stationary sources of air pollution, and all modified or reconstructed stationary sources of air pollution shall comply with the standards, criteria, and requirements set forth herein. Whenever any source is subject to more than one rule, regulation, provision or requirement relating to the control of any air contaminant, the most stringent provision shall apply.~~

- ~~1. This rule shall be applicable to any new, modified, or reconstructed sources of air pollution as specified in any subpart of 40 CFR 60 which is applicable to such source and is adopted herein by reference.~~
- ~~2. For the purposes of this rule, the authority of the Administrator under the various portions of 40 CFR 60 shall be exercised by the Control Officer of the District when such authority has been delegated by the Environmental Protection Agency with the exception that the Control Officer shall not be empowered to approve alternate or equivalent test methods, alternate standards, or alternate work practices.~~

**C. "Administrator" means "APCO" Definitions**

~~See Rule 102 for definitions not limited to this rule. For purposes of this rule the following definition, in addition to any definition contained in any subpart of 40 CFR 60, shall apply:~~

~~For the purpose of this Rule, the word "Administrator" as used in 40 CFR Part 60 shall mean the Air Pollution Control Officer (APCO) of the District, except where the reference to "administrator" relates to approval of alternate or equivalent test methods or alternative standards/work practices. EPA policy specifies that the authority of the EPA Administrator for approval of these alternatives cannot be delegated to the APCO.~~

~~"Administrator" means the Administrator of the United States Environmental Protection Agency and his or her designee.~~

**D. Attachment I, Requirements and List of Incorporated CFR Provisions**

- ~~1. Any new, modified or reconstructed source of air pollution which is subject to any subpart of 40 CFR 60 as adopted herein by reference shall comply with the more stringent of the requirements found in the applicable subpart(s) in Section D.2 or in the applicable District Rules and Regulations.~~

2. With the exception of 40 CFR 60 Subparts B, C, Cb, Cc, Cd, Ce, BBBB, DDDD, FFFF, and HHHH, which are included herein for informational purposes only, the following provisions are hereby adopted by reference and are included as District Rules as if fully set forth herein. The following table lists all 40 CFR Part 60 provisions which are incorporated in their entirety as part of this Rule. Federal Register (FR) references are to currently effective provisions promulgated or revised by EPA but not yet incorporated into the currently available CFR volume. Notations in this list indicate deviations from the EPA Environmental Protection Agency-promulgated provision found in the CFR which have been adopted by the District Board for inclusion in this Rule.
